PUBLIC EXAMINATION OF SCHOOL DISTRICT RECORDS

Public records of the school district may be viewed by the public during the regular business hours of the administration offices of the school district. These hours are 9:00 a.m. to 4:00 p.m. Monday through Thursday, except for holidays and recesses.

Records defined by law as confidential records shall be viewed or copied upon receipt of written permission by the administration office from the person or entity whose confidential records are being requested. Lacking such permission, the superintendent will issue a written denial of the request.

Persons wishing to view the school district's public records shall contact the central administration office and make arrangements for the viewing. The office personnel will make arrangements for viewing the records as soon as practicable, and within 4 business days if possible.

Persons wanting copies may be assessed a fee for the copies not to exceed the actual costs. If the estimated cost of the records exceeds \$50.00, the office will obtain an advance deposit equal to the estimated cost. Records will not be made available in any form in which that record is not already maintained or produced. Persons making requests to use their own copying equipment must make arrangements satisfactory to the administration office.

It shall be the responsibility of the administration office to maintain accurate and current records of the school district. It shall be the responsibility of the office to respond in a timely manner to requests for viewing and receiving public information of the school district. If the office is unable to provide the requested records within 4 business days, the secretary will issue a written explanation with a revised date for completion, an estimate of cost, and allow the requester to modify or prioritize the information request.

PUBLIC COMPLAINTS

The board recognizes that concerns regarding the operation of the school district will arise. The board further believes constructive criticism can assist in improving the quality of the education program and in meeting individual student needs more effectively. The board also places trust in its employees and desires to support their actions in a manner that frees them from unnecessary or unwarranted criticism and complaints.

Procedures for dealing with complaints concerning programs or practices should be governed by the following principles:

- where action/investigation is desired by the complainant, or where it seems appropriate, the matter should initially be handled as near the source as possible;
- complaints should both be investigated and, if possible, resolved expeditiously;
- complaints should be dealt with courteously and in a constructive manner; and,
- individuals directly affected by the complaint should have an opportunity to respond.

The board, consistent with its board policy-making role, will review the action taken to resolve complaints concerning specific schools, programs or procedures only after the usual channels have been exhausted. Complaints regarding employees or complaints by students will follow the more specific policies 403.05 and 504.01 respectively.

When a complaint requiring attention is received by the board or a board member it will be referred to the superintendent. After all of the channels have been exhausted, any complainant wishing to appeal to the board shall appeal in writing. However, the board will only directly consider appeals dealing with policies, procedures and programs. Any appeals involving employee issues will be passed on to the board's legal counsel to determine whether district policies and procedures were followed by the administrator in attempting to resolve the conflict.

PARENTAL AND FAMILY INVOLVEMENT IN THE SCHOOLS

It is the policy of the district to provide full access to the parent and family members of any student of the district to review textbooks, tests, curriculum and instructional materials, records of a student of any such parent, unless otherwise prohibited by law, and to any surveys of students done by the school district. Summary information regarding the district's curriculum, testing, and surveys will be provided at the beginning of each school year. Requests for access to specific instructional materials should be addressed to the teacher or building principal.

Requests by parents and family members to attend and monitor courses, assemblies, counseling sessions and other instructional activities shall also be made to the building principal or teacher. While requests to monitor are usually granted, if the request is denied, reasons for the denial will be provided.

It is the policy of the district to provide as consistent an experience as possible in all classroom instruction, testing, surveys, and other school experiences. It is the policy of the district not to excuse students from classroom instruction, testing, and other school experiences unless an objection is submitted to the building principal or teacher outlining the specific experience, the basis for the objection and a proposed solution for dealing with the objection that would be satisfactory to the parent and family members.

The request for the student to be excused will be reviewed by the building principal and a decision provided to the parents and family members. While verbal objections and decisions are valid, written follow-up to verbal communications is required from the parent and family members, and the principal. If a student is excused from the requested activity no penalty will be assessed but an agreed upon alternative activity must be performed to the satisfaction of the teacher and principal.

It is the policy of the district to use only testing methods and testing instruments that are not of an experimental nature and to avoid using any testing materials or testing techniques that are not generally recognized by educational professionals to be within sound educational standards and both educationally and academically appropriate. It is the policy of the district to notify parents and family members of any standardized testing that may be scheduled within the school district.

It is the policy of the district to notify parents and family members of any survey which may be scheduled and to conduct student surveys judiciously, with full consideration of the fact that parents and family members may find items of the survey objectionable.

The following activities will also be included in the board's plan for parental and family involvement:

1. The board will involve parents and family members in the development of the Title I plan, the process for school review of the plan and the process for improvement;

Approved _____ Reviewed _____ Revised _____

2. The board will provide the coordination, technical assistance and other support necessary to assist participating schools in planning and implementing effective parental and family involvement activities to improve student academic achievement and school performance;
3. The board will build the schools' and parents' and family members' capacity for strong parental and family involvement;
4. The board will coordinate and integrate parental and family involvement strategies under Title I with other programs such as Head Start, Reading First, etc.;
5. The board will conduct with the involvement of parents and family members, an annual evaluation of the content and effectiveness of the parental and family involvement policy in improving the academic quality of the school served including identifying barriers to greater participation by parents and family members in Title I activities (with particular attention to parents and families who have low income, Limited English Proficient (LEP), minorities, disabilities and low literacy) and use the findings of the evaluation to design strategies for more effective parental and family involvement and to revise, as necessary, the parental and family involvement policies; and
6. The board will involve parents and family members in Title I activities.

The parent and family members or guardian of a student may have access to that student's records during normal business hours of the district according to Policy 507.01 Student Records Access.

This policy is adopted following a public hearing to receive public comments and suggestions.

VISITORS TO SCHOOL

The Board encourages parents and other district citizens to visit the school and classrooms at any time to observe the work of students, teachers and other employees. All visitors, which includes persons other than employees or students, must notify the principal of their presence in the facility upon arrival and request authorization to visit elsewhere in the building.

Persons who wish to visit a classroom while school is in session are asked to notify the teacher and obtain approval from administrators prior to the visit so appropriate arrangements can be made and so class disruption can be minimized. Teachers and other employees shall not take time from their duties to discuss matters with visitors.

Visitors shall conduct themselves in a manner fitting to their age level and maturity and with mutual respect and consideration for the rights of others while attending school events. Visitors failing to conduct themselves accordingly may be asked to leave the premises. The board and administration will not tolerate any person or persons whose presence disturbs classes or school activities or hinders the instructional process. Children who wish to visit school must be accompanied by a parent or responsible adult.

It shall be the responsibility of employees to report inappropriate conduct. It shall be the responsibility of the superintendent to take the action necessary to cease the inappropriate conduct. If the superintendent is not available, a school district employee shall act to cease the inappropriate conduct.

The Board discourages using the school as a site for parents without custody to visit their children. The principal may deny the parent without custody the opportunity to deliver packages, gifts, messages, etc., to the child and/or to see the child during the school day without the approval of the custodial parent or legal guardian. In this paragraph, "without custody" means the parent lacks joint legal custody under Nebraska law.

The district may restrict the use of its buildings and grounds or restrict access to school property by issuing no trespassing commands and/or stay away/no trespassing letters when deemed necessary by the superintendent when any individual or group:

1. is determined to present a risk to the safety of others,
2. presents a disruption to the learning environment,
3. fails to follow proper check-in and identification procedures, or
4. does not have a legitimate purpose to be present on school grounds or activities.

In the event a person prohibited by this or other board policies is on district property or is attending a district-sponsored event, the superintendent will tell the person he or she must leave and will notify the person they are not permitted back on district property, except if

Approved _____ Reviewed _____ Revised _____

their presence is required by the district. A refusal to leave or stay away as directed will be considered trespassing. The superintendent may contact the proper legal authorities if necessary to enforce this policy and may file a report or sign a complaint on behalf of the district.
