

Preschool News

Look at what we learned this week!

The 100th day of school was a huge success. The morning class was able to join the elementary students for a special 100th day breakfast made by the teachers! Both the morning and afternoon preschool classes explored the number 100. During whole group time everyone counted out the ten snack items they brought to school. We then put them all together and discov-

ered that when you count to ten, ten times you will hit 100. Once we made this discovery we split our snacks up so that everyone got one of the ten items to take home.

We also explored the number 100 by building a 100 Styro-foam cup structure

with a group. This was a lot of fun and a lot more difficult than we originally thought it would be. We also discussed and made a picture of what we would buy if we had \$100. Throughout the day we were able to wear our 100 day crowns that we had made. Our 100th day of school was exciting and jammed packed full of learning!
