

Preschool News

Look at what we are up to...

Happy Saint Patrick's day to all of our readers! On Monday we found ourselves using our handprints to make our own shamrocks and then we used our hands to mix blue and yellow together. Did you know that blue and yellow mixed together make green? Tuesday was St. Patrick's day. We celebrated by reading a book all about leprechauns. That sneaky leprechaun even visited our classroom. He turned our classroom into a mess when we got back from PE. The tissues were even scattered across our classroom floor! On Wednesday the afternoon class visited the nursing home to show off our singing skills. Ms. Wiepen was very impressed with how well the students followed directions and sang. You could even hear us way in the last row! We also had a student from Chadron observing in our afternoon class. Everyone had a great time showing her how we run things in preschool. Our exploration of St. Patrick's Day continued when we completed a rainbow science experiment. We put a drop of food coloring in separate cups to imitate the rainbow. Then we dumped some baking soda over it and then added vinegar and watched our rainbows explode!! This was by far one of the most fun and interesting experiments we have completed!

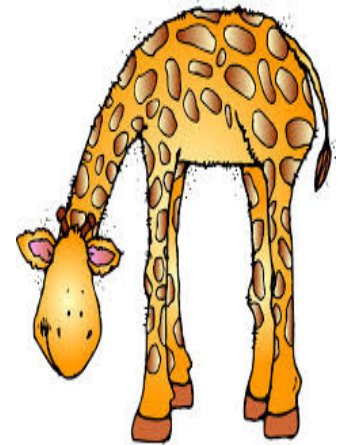

Thank You!

I would like to thank all of the parents that attended conferences. It may not seem important in preschool but I appreciate everyone taking the time to meet with me and discuss your child. I always enjoy showing parents what their child has learned and how they have improved! None of the progress in development that your child makes could be possible without your tremendous
