PROMOTING STUDENT RESILIENCE

The District will develop methods to create positive student experiences that:

1. show students they belong as valued members of their class and school such as through cooperative projects, positive attitudes and emotions, helping others and participating in group activities;
2. reinforce student feelings that they are useful to their classmates and valued by adults by developing positive social relationships, monitoring and controlling one's own behavior, and communicating with parents and teachers to understand difficulties and reinforce appropriate behaviors;
3. teach the students techniques for reinforcing their efforts to improve on their own success such as showing persistence, trying different methods to master academic skills, discussing why a failure has occurred, considering how to build on their existing strengths; and
4. provide the students with support of, and evidence for, academic competence such as completion of tasks on time, pre- and post-learning tests, and visual evidence of development of academic skills.

These experiences are intended to lessen the feelings of failure, alienation, uselessness and powerlessness created by adversity and teach methods to create better future outcomes. Teachers will support students in making appropriately assertive efforts to identify reasons for lack of success and address negative emotions undermining those efforts.

The District will create supportive parental relationships by fostering positive teacher/parent communications on a frequent basis through proactive discussions of student progress, assignments, class plans, curriculum focus and student challenges.

The District may consider creating multiyear relationships between individual teachers and groups of students to better follow student growth and progress over an extended time.

The District will monitor related indicators over a period of years including numbers of suspensions, attendance, graduation rates, GPA and standard assessment scores as evidence of successful implementation of this policy. The district will create a baseline of data to assess classroom climate and assist in implementing resilience-building strategies.

The Superintendent, in consultation with the administrative team, will implement this policy.

READING INSTRUCTION AND IMPROVEMENT

The district will facilitate reading instruction and intervention services to address student reading needs, including, but not limited to, dyslexia, and ensure all teachers for kindergarten through grade three will be effective reading teachers as evidenced by (a) evaluations based on classroom observations and student improvement on reading assessments or (b) specialized training in reading improvement. Each student and his or her parents or guardians will be informed of the student's reading progress; and it is the district's intent that each student be able to read at or above grade level by third grade.

For school year 2019-20 and each following school year, the district shall administer an approved reading assessment three times during the school year to all students in kindergarten through grade three, except for any student receiving specialized instruction for limited English proficiency who has been receiving such instruction for less than two years, any student receiving special education services for whom such assessment would conflict with the individualized education plan, and any student receiving services under a plan according to the requirements of section 504 of the federal Rehabilitation Act of 1973 or Title II of the Americans with Disabilities Act for whom such assessment would conflict with that section 504 or Title II plan. The first administration of such assessment for each such school year shall occur within the first thirty days of the school year.

Any student in kindergarten, grade one, grade two, or grade three shall be identified as having a reading deficiency if the student performs below the threshold level determined according to the Reading Improvement Act on an approved reading assessment. A student who is identified as having a reading deficiency shall remain identified as having a reading deficiency until the student performs at or above the threshold level on an approved reading assessment. Nothing in the Nebraska Reading Improvement Act shall prohibit a school district from identifying any other student as having a reading deficiency.

The district shall provide a supplemental reading intervention program for the purpose of ensuring that students can read at or above grade level at the end of third grade. The district may work with a reading specialist at the State Department of Education, with educational service units, with learning communities, or through interlocal agreements to develop and provide such supplemental reading intervention programs. Each supplemental reading intervention program shall:

- a. Be provided to any student identified as having a reading deficiency;
- b. Be implemented during regular school hours in addition to regularly scheduled reading instruction unless otherwise agreed to by a parent or guardian; and
- c. Make available a summer reading program each summer for any student who has been enrolled in grade one or higher and is identified as continuing to have a reading deficiency at the conclusion of the school year preceding such summer reading

program. Such summer reading program may be held in conjunction with existing summer programs in the school district or in a community reading program not affiliated with the school district or may be offered online.

The supplemental reading intervention program may also include:

- a. Reading intervention techniques that are based on scientific research
- b. and best practices;
- c. Diagnostic assessments to frequently monitor student progress throughout the school year and adjust instruction accordingly;
- d. Intensive intervention using strategies selected from the following list to match the weaknesses identified in the diagnostic assessment:
 - i. Development in phonemic awareness, phonics, fluency, vocabulary, and reading comprehension;
 - ii. Explicit and systematic instruction with detailed explanations, extensive opportunities for guided practice, and opportunities for error corrections and feedback; or
 - iii. Daily targeted individual or small-group reading intervention based on student needs as determined by diagnostic assessment data subject to planned extracurricular school activities;
- e. Strategies and resources to assist with reading skills at home, including parent-training workshops and suggestions for parent-guided home reading; or
- f. Access to before-school or after-school supplemental reading intervention with a teacher or tutor who has specialized training in reading intervention.

The school of any student who is identified as having a reading deficiency shall notify such student's parents or guardians either in writing or by electronic communication no later than fifteen working days after the identification of the reading deficiency that the student has been identified as having a reading deficiency and that an individual reading improvement plan will be established and shared with the parents or guardians.

Any student who is identified as having a reading deficiency shall receive an individual reading improvement plan no later than thirty days after the identification of such reading deficiency. The reading improvement plan may be created by the teacher, the principal, other appropriate school personnel, and the parents or guardians of the student and shall describe the reading intervention services the student will receive through the supplemental reading intervention program as described above to remedy such reading deficiency. Each such student shall receive reading intervention services through the supplemental reading intervention program as described above until the student is no longer identified as having a reading deficiency.

Any 11th or 12th grade student who is under the age of 21 shall be eligible to apply to an institution of higher education for enrollment through the post-secondary options program if he or she:

1. is deemed by the student and parent/guardian on the advice of the principal to be in need of course work at a higher academic level than that available at school
2. is deemed by school personnel to show a high degree of maturity and responsibility, especially with regard to potential for completing post-secondary courses
3. is deemed by school personnel to be in need of a different environment
4. has given two months' written notice to the school district specifying the courses in which the student intends to enroll

Academic Credit

Academic credit granted for course work successfully completed by a student under this program shall count as high school credit toward graduation requirements unless credit is denied by the principal and the denial, if appealed, is upheld by the superintendent and the board on the basis that such credit is inappropriate. An appeal procedure is provided in the event a student is denied high school credit. A student participating in this program shall still be considered as enrolled in the district and eligible for all high school activities.

The program is not available for summer school.

Payment of Tuition by Student

The student or parent/guardian shall be responsible for paying the tuition associated with post-secondary courses taken by the student. The district shall not reimburse the student or parent/guardian for tuition for such courses.

INDIVIDUALIZED INSTRUCTION

The board's primary responsibility in the management of the school district is the operation and delivery of the regular education program. Only in exceptional circumstances will the board approve students receiving individualized instruction at the expense of the school district.

Recommendations from the superintendent for individualized instruction shall state the need for the instruction, the objectives and goals sought for the instruction, the employee requirements for the instruction, the implementation procedures for the instruction and the evaluation procedures and processes that will be used to assess the value of the instruction.

It shall be the responsibility of the superintendent to implement this policy.

RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the principal. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations.

In notifying the principal, the parents shall abide by the following:

1. The notice shall be in writing;
2. The objection shall be based on religious beliefs;
3. The objection shall state which activities or studies violate their religious beliefs;
4. The objection shall state why these activities or studies violate their religious beliefs;

The principal shall have discretion to make this determination. The factors the principal shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available principal-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

Students who are allowed to be excluded from a program or activity which violates their religious beliefs may be required to do an alternate supervised activity or study.

ENGLISH AS A SECOND LANGUAGE

The School Board recognizes the need to provide equal educational opportunities for all students in the district. Therefore, if the inability to speak and understand the English language due to national origin or non-English speaking environments excludes a student from effective participation in the educational programs offered by the district, the district shall take appropriate action to rectify the English language deficiency in order to provide the student equal access to its programs. The board directs the administration to develop and implement procedures which:

- Appropriately identify and evaluate students with limited English proficiency (LEP). Limited English proficient students are those whose native/home language is a language other than English and whose English language skills of listening, speaking, reading and writing are not developed to a level at which they can achieve challenging performance standards in a regular classroom.
- Determine the appropriate instructional environment for LEP students.
- Monitor progress of students receiving English as a Second Language (ESL) or bilingual instruction in order to determine their readiness for the mainstream classroom environment.
- Establish professional standards for staff members who teach bilingual or English as a Second Language programs and provide development opportunities for staff members when needed.

Where feasible, the district may provide support for the student's use of the native language while developing English language skills.

PROGRAM ADAPTATION/ALTERNATIVE ARRANGEMENTS

It shall be the policy of the Hay Springs School District to provide an alternative education, school, class, or program for expelled students as provided by applicable law and in compliance with departmental rule governing the provision of “alternative education programs.”

Notwithstanding provision of alternative school, class, or program, it shall be the policy of this District to authorize the administration to make judgment on a case by case basis as to whether providing an alternative school, class, or program, for a student who is at risk of being expelled, to determine whether such alternative educational settings are appropriate given the best interest of the student(s), the best interest of other students, and the best interest of the school district. In the event the administration determines that an alternative school, class or program will not be made available to a student who is at risk of being expelled, then the following procedure shall be used in a case involving expulsion in addition to all other procedures set forth in policy regarding expulsions.

1. Prior to the expulsion taking place, a conference shall be held by the building principal which shall include: (a) the building principal, or his/her designee; (b) parent(s) or legal guardian(s) of the student involved; (c) such other school representative(s) as the building principal may designate; (d) and may also include representative(s) of a community organization which has a mission of assisting young people, OR a representative of the County Sheriff’s Office, State Probation Office, or other representative of an agency involved with juvenile justice. The purpose of the conference shall be to develop a plan which shall be in writing and which shall be adopted by the Superintendent of the District, and presented to the student and his/her parent(s) or legal guardian(s).
2. The “written plan” shall identify educational objectives the student must achieve in order to receive credits toward graduation, and shall specify standards of student behavior the student must demonstrate to continue in the alternative educational setting. The plan shall also specify financial resources and community programs, if any, which are available to meet the educational and behavioral objectives of the student as identified in the plan. If the student fails to meet any of the conditions of the learning program, the District may, without further obligation, terminate the alternative education programs after a due process hearing, unless waived by the parent(s) or legal guardian(s).
3. It shall be the policy of the District to require the building principal when calling a conference as described in this policy to make reasonable efforts to accommodate the schedules of all participants in the conference, provided however any scheduling conflicts, unavailability of certain participants, or refusal of certain participants to

participate in the conference shall not prohibit the Districts from expelling students in a manner otherwise consistent with Board Policy.

4. It shall be the duty of the Superintendent, or his/her designee, to schedule monthly reviews for any student who is expelled in order to assess the student's progress toward meeting the specified goals and objectives of the written plan. It shall be the duty of any student who is expelled to attend monthly reviews at the time and place determined by the administration during the course of the expulsion.
5. Nothing in this policy shall be construed to prevent the suspension of a student pending an expulsion provided such suspension shall be in accordance with applicable policies of the District pertaining to suspensions. Nothing in this policy shall be construed to prevent expulsion from being carried out so long as the District has made reasonable efforts to convene a conference as described in this policy.

INSTRUCTIONAL MATERIALS SELECTION

The board delegates authority to certificated employees and administrators to determine which instructional materials, other than textbooks, will be utilized by and purchased by the school district.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, certificated employees shall consider the current and future needs of the school district as well as the changes and the trends in education and society. It shall be the responsibility of the superintendent to report to the board the action taken by certificated employees.

In making its recommendations to the superintendent, the certificated employees will select materials which:

- support the educational philosophy, goals and objectives of the school district;
- consider the needs, age, and maturity of students;
- are within the school district's budget;
- foster respect and appreciation for cultural diversity and difference of opinion;
- stimulate growth in factual knowledge and literary appreciation;
- encourage students to become decision-makers, to exercise freedom of thought and to make independent judgment through the examination and evaluation of relevant information, evidence and differing viewpoints;
- portray the variety of careers, roles, and lifestyles open to persons of both sexes; and,
- increase an awareness of the rights, duties, and responsibilities of each member of a multicultural society.

In the case of textbooks, the board shall make the final decision after receiving a recommendation from the superintendent. The criteria stated above for selection of other instructional materials shall apply to the selection of textbooks. The superintendent may develop another means for the selection of textbooks. Textbooks shall be reviewed as needed and at least every 7 years.

Education materials given to the school district must meet the criteria established above. The gift must be received in compliance with board policy.

INSTRUCTIONAL MATERIALS SELECTION

1. Responsibility for Selection of Instructional Materials

- A. The Board is responsible for matters relating to the operation of the district.
- B. The responsibility for the selection of instructional materials is delegated to the professionally trained and certified employees of the school system. For the purpose of this rule the term “instructional materials” includes printed and audiovisual materials (not equipment), whether considered text materials or media center materials. The board retains the final authority for the approval of textbooks.
- C. While selection of materials may involve many people including principals, teachers, students, parents, community members and media specialists, the responsibility for coordinating the selection of most instructional materials and making the recommendation for the purchase rests with licensed employees. For the purpose of this rule the term "media specialist" includes librarians, school media specialists or other appropriately licensed persons responsible for the selection of media equipment and materials.
- D. Responsibility for coordinating the selection of text materials for distribution to classes will rest with the licensed employees, principal and superintendent. For the purpose of this rule the term 'text materials' includes textbooks and other printed and nonprinted material provided in multiple copies for use of a total class or major segment of a class.
- E. If the board appoints an ad hoc committee to make recommendations on the selection of instructional materials, the ad hoc committee shall be formed and appointed in compliance with the board policy on Ad Hoc Committees.
 - 1) The superintendent will inform the committee as to their role and responsibility in the process.
 - 2) The following statement shall be given to the ad hoc committee members:

Bear in mind the principles of the freedom to learn and to read and base your decision on these broad principles rather than on defense of individual materials. Freedom of inquiry is vital to education in a democracy.

Study thoroughly all materials referred to you and read available reviews. The general acceptance of the materials should be checked by consulting standard evaluation aids and local holdings in other schools.

Approved August 10th 2020 Reviewed Mr. Hagge June 2020 Revised _____

Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based on the material as a whole.

2. Material selected for use in libraries and classrooms shall meet the following guidelines:

 - C. Sexism - Material shall reflect a sensitivity to the needs, rights, traits and aspirations of men and women without preference or bias.
 - D. Age - Material shall recognize the diverse contributions of various age groups and portray the continuing contributions of maturing members of society.

This material shall not be selected with the intention to sway reader judgment and shall be related to the maturity level of the intended audience.
 - F. Profanity and Sex - Material shall be subjected to a test of literary merit and reality by the media specialists and licensed staff who will take into consideration their reading of public and community standards of morality.
 - G. Controversial issues materials will be directed toward maintaining a balanced collection representing various views.

The selection decision should be made on the basis of whether the material presents an accurate representation of society and culture, whether the circumstances depicted are realistically portrayed, or whether the material has literary or social value when the material is viewed as a whole.

ACCEPTABLE USE OF COMPUTERS, TECHNOLOGY AND THE INTERNET

The Board supports the use of computers, technology and the Internet in the District's instructional program as a resource to educate and inform. The use of these resources shall be consistent with the curriculum adopted by the School District and shall be employed in an appropriate and responsible manner to meet the varied instructional needs, learning styles, abilities and developmental levels of students.

Procedures and Guidelines

The Superintendent shall develop and implement appropriate procedures to provide guidance for computer use and Internet access. Guidelines shall address teacher supervision of computer use, ethical use of electronic media, and the District's ownership and right of administrative review of electronic files and communications. The term "electronic media" includes, but is not limited to, the Internet, e-mail and other technological resources.

The guidelines shall prohibit utilization of networks for inappropriate or illegal activities, the intentional spreading of imbedded messages (viruses) or the use of other programs with the potential of damaging or destroying programs, data or equipment. The guidelines will describe the District's limitation of liability and will establish that the use of computers, technology and the Internet is a privilege, not a right. Violation of the procedures and guidelines will result in cancellation of those privileges and appropriate disciplinary action.

Technology Protection Measure

The District will implement a technology protection measure that will block or filter Internet access to visual depictions that are obscene, pornographic or of a harmful nature to minors. Operation of this measure will be monitored and enforced during use of computers by minors.

Audit of Use

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system. Participation in chat rooms is prohibited without specific prior approval by the system administrator. The Superintendent shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing prohibited materials. The process may include, but not be limited to:

1. Utilizing blocking/filtering software.

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised _____

2. Turning off the "auto load images" feature of the Internet browser.

Appropriate Internet Behavior On Social Websites

The district recognizes its responsibility to educate students regarding appropriate behavior on social networking and chat room sites about cyberbullying. Therefore, students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Student Use

A written parental permission and agreement form will be required prior to the student being granted access to electronic media involving District technological resources. The form will specify acceptable uses, rules of on-line behavior, access privileges and penalties for procedural violations. It must be signed by the parent or legal guardian of minor students (under age 18) and by the student. This document will be kept on file as a legal, binding document. In order to rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

Staff Use

A written staff agreement form will be required for all employees having access to electronic media. Staff shall confine e-mail use to work-related purposes and a reasonable, appropriate and limited personal use that does not interfere with their district duties. The agreement form will refer to the procedures and guidelines for use of computers and the Internet, describe prohibitions and limitations on the use of these resources and state the employee's responsibility for the security of individual passwords.

Community Use

On recommendation of the Superintendent, the Board will determine the conditions and limits under which equipment and services will be made available to the community. Upon request to the Building Principal, community members may have access to electronic resources and programs available through the District, provided they attend any required training and abide by the rules of usage established by the Superintendent. A written agreement form will be required for all community members having access to these resources indemnifying the District from claims by community users.

Disregard of Rules

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using computers, technology or the Internet and related resources.

Responsibility for Damages

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care.

INTERNET AND E-MAIL ACCESS PERMISSION LETTER TO PARENTS

Dear Parent/Guardian:

The School District wishes to offer your child limited access to the Internet and an electronic mail (e-mail) account. The Internet is a collection of thousands of interconnected computer networks. The vast amount of information contained within the Internet's libraries can provide valuable learning opportunities to students.

Establishing an e-mail address will allow your child to participate in distance learning activities, communicate with other students around the world, ask questions of and consult with experts, and locate specific material to meet the needs of educational projects.

If your child is a minor (under age 18), your authorization is needed before your child may use these resources. The attached regulations for student use of computers, technology and the Internet should be read carefully and understood by all Internet users. As parents/guardians, you should review it in detail with your children before they begin using the Internet and e-mail in their classroom.

A filtering system is in place to prevent access to certain unacceptable sites on the Internet. However, it is important to understand that no solution is perfect and we cannot guarantee that students will only have access to educational materials. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow. To that end, the School District supports and respects each family's right to decide whether or not to authorize Internet and e-mail access.

If you agree to allow your child to have Internet access and an e-mail address, sign the enclosed Acceptable Use Agreement and return it to your school.

Sincerely,

Approved **August 10th 2020**

COPYRIGHT COMPLIANCE PROCEDURES

Severe penalties may be imposed for unauthorized copying or using of audiovisual or printed materials and computer software, unless the copying or using conforms to the "fair use" doctrine.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. If duplicating or changing a product is to fall within the bounds of fair use, these four standards must all be met for any of the foregoing purposes:

1. The Purpose And Character Of The Use.
The use must be for such purposes as teaching or scholarship; and
2. The Nature Of The Copyrighted Work.
Staff may make **single** copies of: book chapters for use in research; instruction or preparation for teaching; articles from periodicals or newspapers; short stories, essays or poems; and charts, graphs, diagrams, drawings, cartoons or pictures from books, periodicals, or newspapers in accordance with these guidelines; and
3. The Amount And Substantiality Of The Portion Used.
Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed; and
4. The Effect Of The Use Upon The Potential Market For Or Value Of The Copyrighted Work.
If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

Authorized Reproduction and Use of Copyrighted Material in Print

The staff may make **multiple** copies, not exceeding more than one (1) per student, for classroom use if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

1. Brevity
 - A. A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words.
 - B. Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less, may be copied; in any event, the minimum is 500 words. (Each numerical limit may be

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised _____

- expanded to permit the completion of an unfinished line of a poem or prose paragraph.)
- C. One chart, graph, diagram, drawing, cartoon, or picture per book or periodical issue may be copied. "Special" works cannot be reproduced in full; this includes children's books combining poetry, prose, or poetic prose.
2. Spontaneity. Should be at the "instance and inspiration" of the individual teacher.
 3. Cumulative Effect. The staff is limited to using copied material for only one (1) course in the school in which copies are made. No more than one (1) short poem, article, story or two (2) excerpts from the same author may be copied, and no more than three (3) works can be copied from a collective work or periodical issue during one (1) class term. The staff is limited to nine (9) instances of multiple copying for one (1) course during one (1) class term. Limitations do not apply to current news periodicals, newspapers, and current news sections of other periodicals.

Performances by the staff or students of copyrighted dramatic works without authorization from the copyright owner are permitted as part of a teaching activity in a classroom or instructional setting. All other performances require permission from the copyright owner.

The copyright law prohibits using copies to replace or substitute for anthologies, consumable works, compilations, or collective works. "Consumable" works include: workbooks, exercises, standardized tests, test booklets, and answer sheets. The staff cannot substitute copies for the purchase of books, publishers' reprints or periodicals, nor can they repeatedly copy the same item from term-to-term. Copying cannot be directed by a "higher authority," and students cannot be charged more than actual cost of photocopying. The staff may use copyrighted materials in overhead or opaque projectors for instructional purposes.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy of an unpublished work which is in its collection; and a published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided the unused replacement cannot be obtained at a fair price.

A library may provide a single copy of copyrighted material to a student or staff member at no more than the actual cost of photocopying. The copy must be limited to one (1) article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship, or research. Any other use may subject the person to liability for copyright infringement.

At the request of a staff member, copies may be made for reserve use. The same limits apply as for single or multiple copies designated in “Authorized Reproduction and Use of Copyrighted Material in Print.”

Authorized Reproduction and Use of Copyrighted Music

A staff member may make a single copy of a song, movement, or short section from a printed musical work that is unavailable except in a larger work, for purposes of preparing for instruction.

A staff member may make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song.

In an emergency, a staff member may make and use replacement copies of printed music for an imminent musical performance, when the purchased copies have been lost, destroyed, or are otherwise not available.

TEXTBOOK LOANS TO CHILDREN ENROLLED IN PRIVATE SCHOOLS

The superintendent of schools with the cooperation of the school district's principals will administer the textbook loans to resident children enrolled in private schools in Nebraska.

The district of will annually generate a list of textbooks designated for use in the schools. This will be done by December 1 of each year. The list of textbooks will be available in the superintendent's office. Copies of the textbook list will be made available to the public at the actual cost of duplicating the list in whole or in part.

The last day for receiving applications for textbook loans from parents or legal guardians residing within the school district for use during the following school year is January 15 of each year. A limit of 10 textbooks per student in grades K-6 and 8 textbooks per student in grades 7-12 has been established by NDE.

The district will make available to all eligible parties textbooks valued at no more than the total dollars allocated to the district by the State Department of Education. If the parental request exceeds the allocated dollars requests for textbooks used by elementary students will be given first priority. If the parental request for textbooks from parents representing resident elementary students exceeds allocated dollars, textbooks being used in the lower elementary will be given priority.

Parental requests will be filled on an ascending K-12 grade by grade basis. The total school district outlay in dollars will never exceed the allocation that the district is eligible to receive from the State Department of Education.

Ten days prior to the beginning of the district classes, the administration will notify parents or guardians in writing where and when textbooks will be available. Parents or legal guardians receiving textbooks will be required to sign a receipt at the time the textbooks are picked up on designated Form NDE 122-002. Parents or legal guardians shall return textbooks to the designated individual within the local school district within 15 days after the close of the school year. All textbooks are to be returned in reasonably good condition. Lost or damaged books will require that the parent or legal guardian reimburse the district for replacement costs.

It is important to understand that a textbook shall be defined to mean a "book which is designated for use in the classroom as the principal source of study in kindergarten through grade 12 in a public school district." Library books, workbooks, etc. are not eligible material for the definition of "textbook."

ANIMALS IN THE CLASSROOM

Live animals will not be allowed in school district facilities except under special circumstances and only for an educational purpose. Permission from the principal will be required of anyone wishing to bring an animal into school district facilities. The person bringing the animal must furnish transportation for the animal brought to school. Animals will not be allowed to travel to and from the student's attendance center on the school bus without prior approval from the principal.

It shall be the responsibility of the principal to determine appropriate supervision of animals in the classroom.

Written parental permission will be required prior to the student's participation in field trips.

The superintendent's approval will be required for field trips outside the state. Board approval will be required for field trips which involve unusual length or expense.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. PLANNING AND RECORD-KEEPING BY TEACHERS

Quality lesson planning is necessary to help ensure the teacher that key elements of an effective lesson are presented. Lesson plans aid the principal, supervisor and substitute teachers in understanding the regular classroom teacher's plan for teaching the course of study as adopted by the School Board. Lesson plans should also be prepared by teachers whose assignment may vary from regular classroom work in order that their scheduled activities may be observed with understanding or replicated by a substitute teacher. Generally, teachers will prepare lesson plans on a weekly basis although they are expected to have general plans which cover the length of the course. Plans will be kept by the classroom teacher in a place known to and accessible to the building administrators. The principal may further require teachers to provide copies of lesson plans to the school office at reasonable times and intervals as determined by the principal.

The lesson plan should be of sufficient length and substance to allow a substitute teacher to carry on the course of study and to provide a means by which principals and supervisors may monitor instruction to assure that the educational program in a particular class or activity is related to the district-approved course of study.

Although the district will provide lesson plan books, principals may request another system or format for the presentation of lesson plans provided it meets the purpose of planning. Principals may also require more detail or specific plans to assist individual teachers, or they may minimize the use of lesson plans when such action will not compromise the stated purpose of lesson planning.

It is recognized that provision for flexibility is essential within the lesson plan to allow for unexpected changes and varying learning rates.

SCHOOL VOLUNTEERS

Citizens who voluntarily contribute their time and talents to the improvement and enrichment of the public schools' instructional and other programs are valuable assets. The board encourages constructive participation of groups and individuals in the school to perform appropriate tasks during and after school hours under the direction and supervision of professional personnel.

Any person authorized by the district for volunteer service into a position having direct, unsupervised contact with students will be required to fill out the district's volunteer information form and obtain administration approval prior to taking part in volunteer activities.

The administration is responsible for the recruitment, use, coordination and training of volunteers. These assignments will be carried out as directed or delegated by the superintendent. Every effort should be made to use volunteer resources in a manner which will ensure maximum contribution to the welfare and educational growth of students.

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised _____

SERVICE ANIMALS AND THERAPY DOGS

The Board recognizes that service animals may be used to provide assistance to some persons with disabilities. This policy governs the presence of service animals in the schools, on school property, including school buses, and at school activities.

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals are not service animals for the purposes of this definition, though miniature horses are entitled to similar treatment in certain circumstances.

The service animal must perform tasks or do work for the individual with a disability. The work or tasks performed by a service animal must be directly related to the individual's disability, such as:

- Assisting individuals who are blind or have low vision with navigation and other tasks,
- Alerting individuals who are deaf or hard of hearing to the presence of people or sounds,
- Providing non-violent protection or rescue work,
- Pulling a wheelchair,
- Assisting an individual during a seizure,
- Alerting individuals to the presence of allergens,
- Retrieving items such as medicine or the telephone,
- Providing physical support and assistance with balance and stability to individuals with mobility disabilities, and
- Helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

Excluded from the lists of acceptable tasks or work performed by a service animal are:

- The crime deterrent effects of an animal's presence, or
- The provision of emotional support, well-being, comfort, or companionship.

When determining whether an animal qualifies as a service animal, school officials may ask the individual with a disability only two questions:

1. Whether the animal is required because of a disability; and
2. What task or work the animal has been trained to do.

These questions may not be asked if it is readily apparent that the individual has a disability or that the animal is trained to do work or perform tasks for the individual with a disability. School officials may not ask about the nature or extent of a person's disability, nor can a request be made to produce a certificate establishing the dog's qualification as a service animal.

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised _____

The service animal must remain well-behaved and under control at all times at school. The service animal must have a harness, leash or other tether unless it cannot be used by the person in control because of a disability or if it would interfere with the service animal's performance. In either case, the animal must still be under control by way of voice controls, signals or other means.

Individuals with disabilities are permitted to be accompanied by a service animal in all areas of the district's facilities where members of the public, participants in services, programs, or activities are normally allowed to go. If the service animal has a separate handler, that individual shall also be allowed access to facilities. At events for which an attendance fee is charged, there shall be no additional fee for the service animal.

The district may remove or exclude a service animal from district facilities if:

1. The animal is out of control and the animal's handler does not take effective action to control it;
2. The animal is not housebroken;
3. The presence of the animal poses a direct threat to the health or safety of others;
- or
4. The presence of an animal would require a fundamental alteration to the service, program or activity of the district.

In the case of removal of a service animal from the premises, the individual with a disability shall still be provided with the opportunity to participate in the service, program, or activity without the service animal.

The person in control of the service animal, and not the school district, is responsible for caring for the dog's needs. This includes any feeding, exercising, and clean up. The district may charge for any property damage caused by the service animal provided the district normally charges individuals for damage they cause.

Therapy Dogs

A therapy dog is one that is used to provide emotional support, well-being, comfort, or companionship to students. Such dogs are generally not intended for the personal use of district students or employees and will only be approved at the discretion of district administration and counselors for their intended purpose. Prior to the consideration of the use of a therapy dog by an individual student, administration and counselors shall consult with the student's parent/guardian and the student's health care provider.

In the case of considering the routine use of a therapy dog by an individual student, the limitations stated above for service animals will also apply to therapy dogs. In addition the school will require that the therapy dog's owner must provide to the district a proof of vaccinations received by the therapy dog as determined by and signed by a veterinarian, for the district's files. These records shall be maintained in the district's files. The therapy dog must be spayed or neutered. The therapy dog must show no aggression toward people or other animals and must not bark or make other distracting noises while in school. The therapy dog may not interfere with the educational process of any student.

The district may also require that the therapy dog has been obedience tested and certified as Canine Good Citizens by the American Kennel Club (“AKC”) and certified for temperament as a therapy dog with a specific handler by the AKC and supply supporting documentation of such certification satisfactory to the superintendent. The district shall maintain copies of current certifications in its files.

CLASSROOM ENVIRONMENT

Classrooms are expected to be maintained in a safe, orderly manner at all times in keeping with providing an appropriate, healthy learning environment. Any items for display or use in the classroom shall meet this criterion. The use of essential oils or essential oil diffusers will not be permitted in district facilities by students, staff or visitors.

All items on display in the classroom such as posters, pictures, banners, charts, signs or flags must be related to the curriculum. Items unrelated to the curriculum or that may cause a disruption to the learning environment are prohibited. Staff members are expected to request the building principal's approval for display of items that may not meet this standard.

STUDENT GUIDANCE AND COUNSELING PROGRAM

The board shall provide a student guidance and counseling program. The guidance counselor shall be certified with the Nebraska Department of Education in guidance and counseling and hold any additional qualifications required by the board. The guidance and counseling program will serve grades K - 12. The program will assist students with their personal, educational, social and career development. TEST OR ASSESSMENT SELECTION

A comprehensive testing program shall be established and maintained to evaluate the education program of the school district and to assist in providing guidance or counseling services to students and their families.

No student shall be required, as part of a program funded by the United States Department of Education, to submit, without prior written consent from the student's parent, to surveys, analysis or evaluation which reveals information concerning:

- political affiliations;
- mental and psychological problems potentially embarrassing to the student or the student's family;
- sex behavior and attitudes;
- illegal, anti-social, self-incriminating and demeaning behavior;
- critical appraisals of other individuals with whom students have close family relationships;
- legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers; or
- income, but not including income required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.

As part of any program funded by the United States Department of Education, the district shall obtain written parental consent prior to the participation of any student under the age of 18 in any mental health survey, analysis, evaluation or assessment. The consent form shall describe in detail the purpose, provider, beginning time and duration of the survey, analysis, evaluation or assessment.

It shall be the responsibility of the superintendent, in conjunction with the principal, to implement this policy.

It shall be the responsibility of the board to review and approve the evaluation and testing program.

TESTING INTEGRITY

In the administration of standardized tests, certified staff (teachers, administrators and others) shall not:

1. Provide inappropriate test preparation such as any of the following:
 - a. Copy, reproduce, or use in any manner any portion of any secure test booklet, for any reason.
 - b. Share an actual test instrument in any form.
2. Modify test administration procedures.
3. Provide inappropriate assistance to students during test administration.
4. Change or fill in answers on student answer sheets.
5. Provide inaccurate data on student information sheets.
6. Discourage or exclude certain students from taking the test.
7. Engage in any other practice to artificially raise student scores without actually improving underlying student achievement.
8. Participate in, direct, aid, counsel, assist, encourage, or fail to report any of the acts prohibited in Policy 610.02 or 610.02R1.

Failure by staff to follow district guidelines and/or state testing directions is grounds for termination.

TEST OR ASSESSMENT ADMINISTRATION

1. State Assessments.

The district has adopted an assessment plan and has aligned the curriculum with the state approved content standards. The assessment plan includes a schedule and procedures for assessing success in achieving state standards.

Teachers are to clearly articulate the learning targets and align instruction to the learning targets within each of the content standards. Teachers are to give students instruction on the content prior to students being assessed on each content standard in order to provide learning opportunities for all students.

The assessments are to be conducted in accordance with the assessment plan schedule. Teachers are to conduct the assessments in a manner that assures it accurately assesses whether or not students are meeting the targets outlined by the content standards.

Assessment results are to be reported by the teachers in the manner and within the time directed by the administration or designee. The assessment data is to be used to meet state standards, to provide students and parents with information about student progress, to enhance school improvement planning, and to improve instruction. The assessment data is to be evaluated by teachers to monitor student learning and to improve instruction or terminate ineffective teaching practices to ensure students are being given the opportunity to meet the standards.

The superintendent, in directing the assessment system, shall hold administrators and staff accountable to:

- a. follow appropriate security procedures;
- b. use the assessments identified within applicable curriculum guides;
- c. use assessment data to monitor student learning;
- d. use assessment data to differentiate instruction where appropriate;
- e. provide students and parents with information about student progress;
- f. use assessment data for school improvement planning; and
- g. use assessment data to adjust, improve, or terminate ineffective teaching practices.

2. Achieving Valid Assessments.

Educators are responsible for maintaining the integrity of the assessments to ensure that assessments provide a valid measure of student progress and accomplishments. Educators are not to engage in any practice that may result in assessment results that do not reflect student learning, knowledge, skills or abilities in the area assessed.

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised _____

For purposes of this policy, student assessments include both “standardized assessments” (including state assessments, norm referenced tests, and evaluations conducted for special education eligibility) and “coursework assessments” (e.g., classroom tests, quizzes, and other evaluative tools used to assign grades).

The following specific assessment expectations and rules apply:

- a. Integrity of the Assessment Instrument. The integrity of the assessment instrument is to be maintained. Administrators shall establish and monitor the chain of custody, limiting and recording who has custody of the testing materials and ensuring they are kept in a secure location when not being administered.
 - i. Standardized Assessments. Standardized assessment instruments are not to be made available to students at any time before the student takes the assessment. The assessment instrument is to be maintained in a secure manner.
 - ii. Coursework Assessments. Coursework assessment instruments are to be periodically modified to keep the assessments current and prevent students from effectively using “test banks.” For coursework assessments that are given on a repeat basis to students at different times (e.g., a test that is given to students throughout the school day), the educator is to remind students to not share the content of the assessment with students who will be taking the assessment later.
- b. Teaching for Success on Assessments.

It is appropriate for educators to prepare students to do well on assessments. This is to be accomplished in a manner that assures the assessment accurately reflects the student’s knowledge, and not simply test preparation.

- i. Teach the Content. Educators are to prepare students to do well on assessments by teaching the subject content. Educators are not to “teach to the test” by teaching based solely on the content of the assessment. The content is to be taught to the students over an appropriate amount of time prior to the assessment. “Cramming” assessment content just before the assessment is to be taken is not appropriate. Review of content previously taught is appropriate.
- ii. Practice Tests. Educators are to prepare students by teaching test taking skills independent of the subject matter being assessed. Educators are not to conduct reviews (drills) using earlier (no longer published) versions of the same test, using alternate (parallel) forms of the same published test, or using actual items from the current form of a standardized test that will be administered to students. Educators are not to conduct reviews (drills) using items of identical format (for example, multiple choice) to the exclusion of other formats.

c. Conditions for Successful Assessments.

- i. Communications. Educators are to communicate to students and parents when assessments will be administered, the purpose of the assessment and how the assessment results will be used. Educators are to motivate students to do their best on assessments. Educators are to read and be familiar with assessment administration directions in advance and communicate the rules to students accurately and clearly.
- ii. Climate. Educators are to have sufficient assessment materials available (e.g., No. 2 pencils, if needed). The classroom is to be arranged to allow comfortable seating. Distractions are to be eliminated. Educators in nearby classrooms are to be informed that the assessment is to be administered so noises from neighboring classrooms are kept at a minimum. Activities or arrangements are to be made for students who finish early so such students do not cause a distraction to other students still taking the assessment.
- iii. Security. Educators are to monitor students while administering assessments to ensure students are complying with standards of academic integrity. Students who violate standards of academic integrity are to be reported to the administration.

d. Full Participation. Educators are to make efforts to have all eligible students take the assessments. The educator should develop a list of students who will be exempted from assessment and the reason for the exemption and submit the list for review and approval by the Principal.

e. Assistance During Assessments.

- i. Standardized Assessments. Educators are not to provide assistance to students while a standardized assessment is being administered except as provided for in a student's 504 Plan or IEP. Educators are expected to follow best professional practices in administering the assessment to prevent testing irregularities. This includes giving "hints," giving extra time, reading the tests to students or defining or pronouncing words for students, allowing students access to instructional material related to the content of the assessment (e.g., displaying a map during a social studies assessment) or allowing students access to mechanical aids (e.g., calculators).
- ii. Coursework Assessments. For coursework assessments, students may be allowed access to instructional materials or mechanical aids only when all students being given the assessment are given the aids and use of the aids does not hinder the students from learning the content of the lesson.

- f. Student Answers. Assessments are to reflect the students' work as submitted by the students. During the assessments, educators are to monitor students to make sure directions are being followed (e.g., students are using a No. 2 pencil on all "bubble" sheet assessments and completely erase mistaken answers and extra marks on "bubble" sheet assessments). Educators are not to change answers on a student's assessment sheet or otherwise participate in the submission of false or misleading assessment results.

Violations of the rules and expectations set forth in this policy will be considered to be a breach of the District's standard of ethics and may result in disciplinary consequences. Educators are to report suspected violations of the expectation to the administration. The administration is to investigate and appropriately respond to violations of the expectations.

A staff member found to have committed testing irregularities shall be subject to discipline in accordance with law and Board policy. If the individual is a certified staff member, the Superintendent shall make a timely report to the Nebraska Professional Practices Commission.

STUDENT PROGRESS REPORTS

The district shall provide a student progress report at the end of each grading period. STUDENT PROMOTION, RETENTION OR ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgement of the teachers and the principal, such exceptions are in the best educational interest of the students involved. Exceptions will always be made after prior notification and explanation to the student's parents, but the final decision will rest with school authorities.

When it becomes apparent a secondary student will be unable to meet the minimum credit requirements for the year, both the student and parents will be informed. Students who cannot demonstrate proficiency at their grade levels will also be considered for retention. Teachers must notify the principal of these students, make a recommendation to the principal concerning their promotion or retention, and hold a conference with parents.

The principal may require remediation at the parents' expense as a condition of promotion to the next grade level. Such remediation may include, but shall not necessarily be limited to, a mandatory summer school program focused on the areas of deficiency or other such alternatives conducted by the district outside of the regular school day.

The parents will be requested to indicate in writing their agreement or disagreement with the recommendation for retention. The final decision will rest with the school administration. Parents may request retention if they believe it to be in the best interest of their student. The principal will confer with the teachers and parents to determine appropriate action.

More than one retention during the elementary school years will receive special consideration and require the approval of the superintendent based on the recommendation of the principal, teacher and parent or guardian.

Students with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's graduation requirements. Acceleration ahead in a grade level should be approached with caution and should only occur with the joint approval of the superintendent, the principal and the parent or guardian.

It shall be the responsibility of the superintendent to ensure that students complete grades one through twelve and that high school students complete 240 credits prior to graduation. The following credits will be required:

Language Arts	<u>40</u>	credit hours
Science	<u>30</u>	credit hours
Mathematics	<u>40</u>	credit hours
Social Studies	<u>40</u>	credit hours

The required courses of study will be reviewed by the board annually.

Graduation requirements for special education students will be in accordance with the prescribed course of study as described in their Individualized Education Program (IEP). Each student's IEP will include a statement of the projected date of graduation at least 18 months in advance of the projected date and the criteria to be used in determining whether graduation will occur. Prior to the special education student's graduation, the IEP team shall determine whether the graduation criteria have been met.

Class of 2020 Graduation Requirements

Grading and Class Promotion

Course grades and promotion for the Class of 2020 are determined by local school board policies and not by state requirements. The District has latitude in determining what grades to award, if any, for coursework and what coursework is required for credit.

Alternate Learning Environments, Changes in Instruction, and Graduation

Some students in the Class of 2020 may fall in the following categories regarding graduation credits:

- ❑ Students who currently have attained the district graduation requirements, which include the state-required credits.
- ❑ Students who have completed the state-required graduation credits but have not completed all the district requirements. Local options may include:

Approved 7/13/2020 Reviewed Mr. Hagge June 2020 Revised 4/14/2020

Local school boards could decide to modify district policy to grant a high school diploma. Local school boards could determine that coursework currently completed is sufficient to award credit for the district-required graduation credits.

As part of a Continuity of Learning Plan, districts could provide additional learning opportunities that students could complete in an alternate learning environment to meet district requirements/credits for graduation.

- Students who have not met the minimum state-required graduation credits but were on track to meet those requirements through current coursework prior to entering an alternate learning environment. Local options may include:

Local school boards could determine coursework currently completed is sufficient to award credit for the state-required graduation credits.

As part of a Continuity of Learning Plan, districts could provide additional learning opportunities students could complete in an alternate learning environment to meet state-required graduation credits.

- Students who are further behind in meeting high school graduation requirements and who would not have been able to meet the state graduation requirements with the normal coursework currently taken prior to the end of the 2019-20 school year. Local options may include:

As part of a Continuity of Learning Plan, districts could provide targeted educational opportunities for these students and consider summer educational opportunities to complete coursework.

Requirements Related to American Civics (Nebraska Revised Statute 79-724)

The requirements within Nebraska Revised Statute 79-724 took effect on September 1, 2019, and the NDE considers 2019-2020 a transition year for implementation. Even so, opportunities may exist in an alternate learning environment to meet requirements within 79-724.

- If a district intends to administer the civics portion of the U.S. Citizenship and Immigration Service Naturalization Test, students are required to take the test twice - once prior to completing 8th grade and a second time prior to completing 12th grade. It may be possible for seniors to complete the second testing in an alternate learning environment. For example, the University of Nebraska High School is offering "Citizenship 101" for free (non-credit), and it prepares students to take the naturalization test at the completion.
- For districts that intend to have students attend/participate in a meeting of a public body OR complete a project/paper and class presentation as outlined in 79-724, those requirements may also be met in an alternate learning environment.
- For questions related to these requirements, contact Cory Epler (cory.epler@nebraska.gov).

IDEA Considerations

Graduating with a regular high school diploma or reaching the maximum age of eligibility both result in termination of a student's eligibility for Special Education (IDEA) services. Procedurally, the student's Individualized Education Program (IEP) team must meet to review the student's status and issue the appropriate coding for the student, specifically 210 or 211 as described in the ADVISER Data Elements Manual, a reasonable time before the student's eligibility is terminated. These meetings may be held via the telephone or through a virtual platform (e.g. Zoom, Google, etc.) and should include the student (if possible). The school district must also provide the student with a summary of performance prior to graduation or ending services because of age. Some IEP teams may have already provided a Notice of Graduation or Notice of Ending Services Due to Age to certain students. As this is an issue of IDEA eligibility, the Nebraska Department of Education recommends that school districts make every effort to complete these steps in a timely manner. For questions related to these requirements, contact Amy Rhone (amy.rhone@nebraska.gov).

EARLY GRADUATION

A student who wishes to graduate from high school in less time than the ordinary eight (8) semester, grade 9-12 sequence, may request permission to complete graduation requirements on an alternate schedule.

The student and parents/guardians will consult with high school guidance personnel to develop a graduation plan. The student's intention to accomplish this shall be stated in writing to the principal. The student's parent or legal guardian must submit a letter in support of the student's request for early graduation, and such letter is to accompany the student's written request. The request letters to the principal are to be submitted no later than six months prior to the anticipated completion of the required high school program.

A student who graduates early must complete all graduation requirements established by the board. The student who chooses early graduation will be allowed to participate in the spring graduation ceremonies. In all other school activities the early-out graduate will be treated as a graduated student.

COMMENCEMENT

Students who have met the requirements for graduation will be allowed to participate in the commencement proceedings provided they abide by the proceedings organized by the school district. It shall be the responsibility of the principal to solicit input from each graduating class regarding the proceedings for their commencement.

The district has a goal of preventing the inappropriate over identification or disproportionate representation by race and ethnicity of children as children with disabilities, including children with disabilities with a particular impairment as described in 92 NAC 51-003.10.

“Child with a disability” means a child who has been verified as per 92 NAC 51-006 as a child with autism, a behavior disorder, deaf-blindness, a developmental delay, a hearing impairment including deafness, a mental handicap, multiple impairment, an orthopedic impairment, an other health impairment, a specific learning disability, a speech-language impairment, a traumatic brain injury or a visual impairment including blindness, who because of this impairment needs special education and related services.
